### STANDING ROOM ONLY AT LAMINATING SEMINAR

Madison College recently hosted a Laminating Seminar sponsored by the Wisconsin AWI chapter. The response was overwhelming – 48 individuals attended! “It was our largest seminar to date” said Cabinetmaking & Millwork Program Director Patrick Molzahn. Thanks to our newly remodeled facility, which doubled our square footage, we were able to handle the crowd.

Presenters included Josh Bartlett of Applied Adhesives and Todd Phalen of Black Bros. They began with a joint, hands-on demonstration on roll coating and pinch rolling. After a lunch, provided by AWI-WI, Josh and Todd each presented on their respective areas of expertise. Particularly impressive was the roll coater which Black Bros. shipped in for the presentation – a true testament to the quality products they build. The seminar also allowed us to showcase our newly acquired Black Bros. cold press.

Madison College is pleased to partner with companies like Applied Adhesives and Black Bros. to promote continuing education for the trade. We strive to bring the real world to our students and provide networking opportunities for all. The Cabinetmaking & Millwork program offers several seminars annually. If you have an idea for a seminar or would like to get on our mailing list, contact Patrick Molzahn, [pmolzahn@madisoncollege.edu](mailto:pmolzahn@madisoncollege.edu) 608.246.6842

### NOTICE:

The **Wisconsin AIA Convention** is Wednesday and Thursday, May 7th and 8th.  
<http://www.aiaaw.org/convention/index.shtml>

AWI WI will have a booth at the event with the capability of showcasing AWI WI Chapter Member work to the architectural community. Please send photos and/or videos of your projects to Jim Buege at [jbuege2@wi.rr.com](mailto:jbuege2@wi.rr.com). The due date for all materials is **April 25th**.

Please feel free to contact Jim at the above email with any questions! Thank you!
