Re: AWI-Wisconsin Scholarship

Dear Mr. Buege,

My life long pursuit of excellence is moving forward, thanks to generous educational scholarships like yours. Since being named one of the recipients of the Architectural Woodwork Institute Scholarship, my dream is becoming a reality at Madison College at the School of Applied Engineering and more specifically in the Cabinetmaking and Millwork Program.

The award gives me an opportunity to earn skills that will serve the Cabinetmaking Industry and the woodworking community following graduation. I want to thank you personally for your generosity: Without scholarship patrons willing to support woodworking education, students such as myself would be unable to pursue woodworking degrees such as the one I am privileged to be part of.

Your scholarship will help me earn the credentials required in Cabinetmaking and other related Architectural Woodworking Industry, which requires specialized technical training and coursework and demands my undivided attention to detail, safety and functionality within the LEAN framework. The Madison College degree encourages me to instill the highest quality standards and professionalism and provides numerous opportunities for professional networking and technology applications of wood, engineered wood and all its related products.

My passion for woodworking has found new home in my rediscovered life after my Law enforcement career was cut short due to an unfortunate injury, so my decision to specialize in cabinet making and Architectural Woodworking comes from the heart.

I am committed to manufacturing and collaborate with other professionals and wood related technology investigators to seek environmentally sound, efficient forms of production while maintaining the highest standards, aesthetics while keeping the final product affordable to the highest number of potential consumers.

Once again, thank you for the vote of confidence and to the Architectural Woodworking Institute of Wisconsin scholarship. I am committed to my education and life long desire to reach the highest levels of wood production/manufacturing, technology and the ever-increasing number of related fields. I am fortunately one step closer to becoming a cabinetmaker, thanks to your continued generosity and the Architectural Woodwork Institute of Wisconsin Scholarship.

Sincerely yours,

Erik Raul Dalma

Dear AWI Board Members,
Being a Madison College Cabinetmaking and Millwork program student, I recently received a generous scholarship by your organization. I just wanted to thank you personally for the award - it will definitely give me more financial flexibility for now and in the future. Also, thank you for your continued support of the program and its students. Whether I make this coursework part of my career or not, being exposed to woodworking has helped me become a better-rounded student and person.

Thanks again,

Marcus Caminti

Dear AWI Board Members,

I was very excited and very appreciative to hear that I was chosen to receive an AWI scholarship. I am writing to thank you for the financial help towards my education.

I am the first out of my family to attend college. I didn't continue an education straight out of high school because financially I didn't think it was possible, after 7 years I decided to take the next step and go back to school to further my education to start a career in Cabinet making and Millwork. Receiving the AWI scholarship was a great help, lightening the financial burden and allows me to focus more on school and gets me that much closer to graduation.

I would like to thank you again for the generous contribution to my education.

Sincerely,

A handwritten signature in cursive script that reads "Alberto Soto". The signature is written in dark ink and is positioned below the word "Sincerely,".

Alberto Soto

Dear AWI Board Members

Thank you for your generosity by awarding me this scholarship. I have enjoyed the cabinet making and millwork program and have therefore been able to create furniture for my own home. I will be able to use this scholarship money to continue with my woodworking skills.

Sincerely,

A handwritten signature in black ink, appearing to read "Tony Caminiti". The signature is written in a cursive style with a large, stylized initial "T".
