

# Sanding and Finishing Seminar

**March 2, 2021**

**Weston, WI**

## Learn what is new in woodworking sanding and finishing.

When working with wood, nothing impacts your workpieces more than the quality of the finish. Sanding your parts can be a complex process when determining which type of sander and abrasives are the best choices for your application. Join Stiles Machinery, Ceramic Industrial Coatings (CIC), Wurth Baer Supply and Central Wisconsin Woodworking Corporation (CWWC) for this one-day complimentary seminar to gain a better understanding of the sanding and finishing process. Through presentations and machine demonstrations from area experts, learn how to achieve the highest quality results for sanding and finishing wood. Register today as seating is limited.

### EVENT HIGHLIGHTS

#### SANDING

##### INDUSTRIAL SANDING (machine sanding)

*Presented by Peter Van Dyke, Stiles Machinery*

Learn more about why we sand, sanding head choices, as well as features and prevention of sanding defects followed by machine demonstrations.

##### HAND SANDING (D/A Sanding) and Adam West Serf-Prep

*Presented by Jose Salinas, Todd Pivonka Wurth Baer Supply*

Jose, Todd, and Adam will share his expertise on selecting the proper abrasives based on their properties and demonstrate proper hand sanding techniques.

#### FINISHING

##### AUTOMATED MACHINE FINISHING

*Presented by David Greer, Stiles Machinery*

Learn more about how automated finishing machines work, types of product that can be run, and coating applications along with machine demonstrations.

##### HAND SPRAYING

*Presented by John Wiercinski Ceramic Industrial Coatings*

Learn more about hand spraying technics, equipment, equipment maintenance and more.
